### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 03 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-4 are rejected under 35 U.S.C. 102(e) as being anticipated by Anandan (US 2005/0007517).

Regarding claims 1-4, Anandan discloses a metal electrode layer for supplying voltage and has a reflecting surface (Fig. 1, 5; Page 2, Paragraph [0030]; Fig. 3, 32; Page 3, Paragraph [0034]); an organic light-emitting diode layer disposed above the metal electrode and driven to emit light by supplying a voltage to the metal electrode (Fig. 1, 4; Page 2, Paragraph [0030]; Fig. 3, 32; Page 3, Paragraph [0034]); a phase transforming film disposed above the organic light-emitting diode wherein the phase transforming film is a twisted nematic cell having a retardation state of a quarter-wave phase difference (Fig. 2, 200; Page 3, Paragraph [0033]; Fig. 3, 31; Page 3, Paragraph [0034]) that can be converted to have a retardation state with zero phase difference; and a polarizer disposed above the phase transforming film (Fig. 2, 25; Page 3, Paragraph [0033]; Fig. 3, 31; Page 3, Paragraph [0034]).

Art Unit: 2879

Regarding claim 1, note that the phrases "and driven to emit light by supplying a voltage to the metal electrode," "can be converted to have a retardation state with zero phase difference," and "having a retardation state of quarter-wave phase difference" are directed to the capability of the elements to perform the recited function, the recitations are not a positive limitation but only requires the ability to so perform. As such, since the Anandan reference discloses all of the claimed structural elements, the Examiner considers the claims to be fully anticipated by Anandan.

Regarding claims 3 and 4, note that both claims are considered as claims to a method of operating the device of claim 1. Since the Anandan reference has all of the claimed structural elements of claim 1, the Examiner considers claims 3 and 4 to be fully anticipated by Anandan.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anne M. Hines whose telephone number is (571) 272-2285. The examiner can normally be reached on Monday through Friday from 8:00-4:30.
